compiles and annotates yalsa s popular paperbacks for young adults and quick picks for reluctant readers includes theme lists

widespread interest in numerology never seems to wane but there are still plenty of people who want to know how to use numbers to learn more about themselves and to make predictions for the future idiot s guides numerology is an easy to understand reference that explains chaldean pythagorean kabbalah chinese and other systems it offers step by step instructions for calculating and interpreting the various types of numbers including the destiny soul personality and life path numbers as well pinnacles and challenges idiot s guides numerology also includes a succinct but detailed worksheet for calculating and capturing all of the various personal numbers

explorations in personality published by oup in 1938 established an elaborate agenda for understanding our subjective human nature that is as relevant to students of personality psychology today as it was to its audience then an antidote to the now fashionable strategy of representing a person as a dot on a scatter plot or burying the individual in an amalgam of statistics it advocates whole person research and bubbles with suggestions about how to perform such studies in addition it actually executes with empirical and experimental rigor and ingenuity the kind of detailed engrossing case study approach it recommends recounting the results of a three year long study of fifty college age individuals this book is in short a classic this reissue enhanced by dan mcadams foreword which will provide a contemporary evaluation of murray s achievement will thus be of great interest to students and researchers in personality psychology in general and personologists in particular

based on a groundbreaking three year study of 50 college age men this modern classic joins the insights and experience of 28 behavioral scientists in the first major exploration of the variables that comprise personality and ways in which they can be measured data was accumulated from intensive interviews specially devised experiments autobiographies conversations childhood memories free association hours sexual development history and from exhaustive series of psychological tests to measure predictive abilities aesthetic appreciation level of aspiration memory failure ethical standards sensorimotor learning and emotional conditioning drawing on this extraordinary fund of information reported on in detail in this volume dr murray and his associates set forth an all encompassing theory of personality and demonstrate in an 87 page case study the accuracy with which a complete personality profile can be compiled from back cover
